

Print Photos, Logos, Designs, and Text Directly Onto Cookies and Confections!

eddie.
Edible Ink Printer

PRIMERA
TECHNOLOGY, INC.
www.primera.com/Eddie

Fast and Easy Operation

Eddie™ prints full-color photographs, logos, designs, and text directly onto the surface of many food items quickly and easily! The machine prints a dozen 3.5" (89mm) cookies or other similar-sized items in just two minutes. The carousel feeder rotates the cookies to the print position and the printer pulls in cookies one at a time, adjusts for the height of each item, prints, and sends them back to the carousel – all automatically and hands-free!

Printed images are bright, vibrant, smudge-resistant, and color-matched to ICC Color Standards.

What can I print on?

Eddie prints on a variety of foods, including onto certain frostings or directly onto cookies, cupcake toppers, macarons, and more. Primera offers bulk icing kits and pre-frosted cookies for those who don't want to make their own. The icing and cookies are optimized to ensure the best print quality.

Applications

Eddie can produce new profits in commercial settings from bakeries to hotels to amusement parks! Print custom cookies and confections for:

- Birthday parties, baby showers, bar or bat mitzvahs, and more
- Trade show giveaways, meetings, and events – add your company logo for maximum impact!
- Wedding receptions, anniversaries, family celebrations
- Amusement Parks and Family Entertainment Centers - use Eddie to print custom images that commemorate guest's time at the facility

No frosting sheets needed!

1

3

1 NSF Certified

NSF certification means that Eddie has been tested and approved for use as an edible ink printer.

2 Lights

Built-in blue and green colored lights turn on during printing and even blink.

3 Lever

The lever pulls in cookies one at a time, adjusts for the height of each item, prints, and sends them back to the carousel – all automatically and hands-free!

Food Industry Certifications

Eddie was designed from the beginning to meet or exceed all regulatory requirements for the specific purpose as an edible ink printer. Eddie has been certified by NSF, a printer industry first. NSF certification assures owners and customers that the product has been tested and approved by one of the most highly regarded, independent organizations in existence today. The NSF mark is valued by consumers, manufacturers, retailers, and regulatory agencies worldwide.

The edible ink cartridge meets all FDA standards for use as a food additive. The ink cartridge itself meets cGMP standards and the entire manufacturing and cartridge filling processes are FDA-compliant and cGMP certified. The edible ink is also Kosher and Halal certified.

④ Ink Cartridge

The edible ink cartridge snaps into place in seconds.

⑤ Carousel Tray

Eddie includes a tray that will fit 3" – 3.5" (76mm - 89mm) round items. Spacers are available to allow items 2.5" (64mm) in diameter.

⑥ Print Resolution

At 4800 dpi, images are sharp, detailed, and photo quality.
